The following fine hybrid seedlings are well established in 2-inch, or 2½-inch pots (See individual descriptions) and no matter what your aims are, you should be able to choose a well rounded assurtment of Cattleya Orchids from these pages. They include all colors, sizes, and seasons.

NOTE: For QUANTITY prices, look on Page 5A. Notice I have made the quantity prices apply to \$2.50 seedlings; \$3.50 seedlings and \$5.00 seedlings — rather than pricing them by pot size or color. This allows you a wider assortment. For example: In the \$3.50 group, you may choose REDS and YELLOWS in 2-inch pots, along with COLORED and WHITE in 2½-inch, enjoying the advantage of QUANTITY prices on all \$3.50 seedlings, regardless of pot size.
